

Be SAFE Near Water- Stay Away From the Edge Water Safety Challenge

How should you ride your bike near the river?

- Ride close to the edge and pedal really fast.
- Do silly Zig Zags across the path.
- Sensibly using both hands and with both feet on the pedals.

When passing over a bridge what should you do?

- Throw things in the water.
- Hang over the side.
- Walk calmly and carefully.

Why is dangerous to play in the river?

- The water in the river is dangerous and has dangerous currents.
- You might frighten a duck.
- Your pants might get wet.

When fishing which of the following should you do?

- Take at least three umbrellas.
- Always eat your maggots.
- Find a safe place to fish and don't block the path.

What should You NEVER do if you see someone fall in the river?

- Jump into the water to rescue them.
- Stay calm and call for help.
- Throw them a Lifebuoy.

Is it ever safe to swim in the river?

- Yes if the weather is really hot.
- No, never.
- Yes if your friends do too.
